F. W. KELSEY NURSERY COMPANY

"EVERYTHING WORTH PLANTING"

15C BROADWAY

NEW YORK, N. Y.

March, 1920.

Dear Sir:

We have not yet seen the "first Robin"; but Spring planting time is near. With it comes consideration of your planting requirements.

We are fortunate in having available some unusually large blocks of our healthy, nicely formed, well rooted, well known QUALITY FIRST STOCK. A number of our Specialties in this stock offered herein subject to prior sale, are in most instances at prices under prevailing market prices.

The stock this season consists of our usual large assortment. We invite comparison of our offers on pages two and three, both as to quality and price with those of any responsible nursery concern in the country; and would call your particular attention to the SPECIALS.

This business was established here in 1878. As a Merchandising Corporation we have exceptional facilities for furnishing what purchasers of nursery material require in reliable stock, viz., the best the market affords, and the selected product of very many nurseries; which only a responsible merchant concern can supply at lowest current prices. Our system of direct shipment also insures the stock being in good condition when received.

We therefore furnish planting lists complete and on the most favorable terms - impossible by any one nursery or several nurseries who have not the facilities we from our long experience possess.

As you are perhaps aware, United States Quarantine #37 became effective July 1st last prohibiting all importations of nursery stock. This Quarantine together with present labor conditions is producing a marked scarcity even of staple varieties and constantly advancing prices all over the country. We are endeavoring to stem this tide of rising prices. In view of the present conditions we earnestly recommend all our patrons to have orders and reservations made now as soon as possible. We book orders, as has been our custom for years, in the sequence orders are received.

It takes but a moment of your time NOW to write us a card or dictate a memo advising of your requirements or requesting us to reserve for you whatever stock you may need this season.

If you do not find all your wants listed on pages two and three, ask us about them. We should be pleased to quote special offers on any items at any time upon word from you. We would emphasize, however, the urgency for prompt attention and consideration of what you may think of using this Spring.

May we not be of assistance to you?

Very truly yours,

F. W. KELSEY NURSERY CO.

P. S. After twenty-seven years in our present suite of offices, the building is to be torn down and our NEW ADDRESS AFTER MAY 1st, 1920, will be No. 50 Church St., Hudson Terminal Building.

DECIDUOUS TREES

All well grown and properly transplanted except where noted.
